OPINION OF ROOSEVELT

"Broadbrim" Reviews the Political Career of the President.

REGARDING WILLIAM S. DEVERY

The New York Democratic Leader Who Wasn't Deuce High at the Saratoga Convention.

[Special Correspondence No. 1224.]

Bubble, bubble, toil and trouble;
Fire burn and cauldron bubble
—Macbeth.

NEW YORK, Oct. 7—The political kettle that was simmering two or three weeks ago is boiling now with a dangerous nerceness that threatens a terrible explosion before the November ides. It is an old proverb that politics makes strange bedfellows. The friends of yesterday are the bitter enemies of today. Where they may be tomorrow Providence only knows. In the early prophecies of September William S. Devery, the immaculate, was sent to Jericho until his beard should grew longer. He wasn't deuce high in the game; he was scarcely a visible factor. But at the end of the political fight in September, up he bobs serenely, and he marches from the polls with his enemies' scalps hanging from his warlike belt. What are those blazing letters that cover his head like a halo? Children of toil, rejoice; you have a new champion now. Read his shining shibboleth. "What is it?" you ask. What is it? Why, it is the proverb that crowns the noble brow of William S. Devery, your champion; your cloud by day and your pillar of fire by night. The bright star of destiny that shines above him enables you to see with the vision of a prophet the motto which is yours and his and will be forever more. Virtue is its own reward. To the aspiring youth of the Greater New York, those who are to be our future rulers, the defender of our character and the guardians of our strong box, learn first that what shall be the sheet anchor of your peace and safety. Addition, division and silence, for therein lies the secret of future greatness and prosperity. One thing, however, is morally certain in Tammany's politics: There never will be such a dictator, with power supreme, as Richard Croker.

The general aim of its present and future government is a more equitable division of power. An army of Democrats who have led the party from victory to victory for many years past will never allow the democracy of the empire state to become a despotism which its very name antagonizes. In summing up the character of our government and the principals of the people by whom it is sustained it would be little less than madness and supremacy of insane folly to suppose or proclaim that because a man is a Democrat that the business of his life is to destroy Democratic institutions or that being a Republican he is necessarily an angel of light without a blemish, a stain or bar sinster across the face of his escutcheon, that if revealed would proclaim to the world a character blacker than our darkest night. Those who use these arguments are frauds and shams, the great body of both parties are honest to the core; if you doubt it read the record from Bull Run to Appomatox; sit down and con the story sealed with the blood of the millions of brave hearts with all they had to give and whose pinnacle of glory was reached at Gettysburg by the truest patriot Democrats and Republicans that ever gave their lives in the defense of the liberty of their country.

Our athletic young President has just discovered that there is an end to every good thing. He burst upon the public observation like a meteor, and be this remembered by the American people that he has filled every position to which he was called with the best of his ability.

The new department of civil service reform, to which he was called, found in him a just exemplar of its principles. Men, from whom we might have expected better things opposed him in every way until he resigned his office. New York wanted an upright police commisssoner. She got it in the person of Theodore Roosevelt. The attempt at purification of one of the most corrupt departments of our government was not an easy villainly to overcome. He resigned from that position and accepted a call as assistant secretary of the Navy, full of the sublimest and grandest possibilities that ever lured a man to honor and fame. A new navy had to be constructed; hundreds of millions of dollars was at his command, but the temptation for loot had no charm for Theodore Roosevelt. The war with Spain came on. A year as assistant secretary of the Navy might have made him a multimillionaire. He thrust the temptation behind him and accepted the position of lieutenant colonel of the Rough Riders. This outrast shows the character of the man.

The Assistant Secretary of the Navy dealt almost in countless millions. The humble lieutenant commander of the Rough Riders had barely sufficient to pay for the expenses of the day. Behind it all, however, was the mystic hand of destiny, perhaps, in the length of time, but culminating in his glory up the rugged side of San Juan Hill, leading onward into the light of almost imperial glory. A baptism of blood, consecrate his advancement and a united nation confirms the decree. Away back in the early days of his youth he helped to shape the image of God to noble uses, but he lived to find that there was an end to every grand purpose. The old British King who placed his seat upon the sands said to the advancing waves: "Thus farshall thou go, and no further." He heeded the lesson, and the world has profited by it. Hundreds of years after the brave old king was laid in the dust with his fathers.

In speaking of William Hogarth last week, and of his wonderful works, "Gin Lane," "The Rake's Progress" and "Marriage a la Mode," I failed to draw forth the moral with the force what it deserved. It may be true that in New York, at the present time, there is a refinement dwelling which Hogarth never say or heard. The vice of his day was gross, vulgar and brutal In New York it is different. Here we have refinement. Here a man might walk through the Tenderloin at midnight and never see an act or hear a word that would offend the sense of decency. Not so in Hogarth's time. Your one bottle man who could only get through a quart of old port, would lay stupidly drunk Then there was your two bottle men, your three bottle men and your four bottle men, who could walk a crack the whole length of the room and never turn a hair.

A point of vital interest to all the people of the United States is the coal strike which now disturbs the land. From Maine to California the pressure is felt, from $12 to $15 a ton being asked for coal in this Empire State of the Union. While on the subject here is a hard granite fact we don't ask to argue the case with you, as to the right or wrong, coal is $15 a ton and winter coming on.

The entire nation looks to the president's convalescence with the deepest and most fervant anxiety. There is a point of divergence between the two which is very difficult to bridge. We are beginning to realize that our president is too self reliant, and there is not a patriot throughout the land who desires to see his life in constant jeopardy. He detests shams and frauds. We trust, however, that the good angels will keep him under guard and that the terrible warning of his predecessor may serve as a universal danger signal.

BROADBRIM.

Notice to Patrons.

The DAILY AGE will go to press at noon on Wednesday, Thursday and Friday of this week to enable employes to attend the fair. Persons desiring news items or advertisements inserted will please bear this in mind.

THE COUNTY COMMISSIONERS

Regular Monthly Meeting of the Board Being Held This Week.

The board of county commissioners are in regular monthly session this week. Besides the regular routine business of allowing bills, etc., two road petitions were filed. The first asks for a road in Bedford township, with J. P. Hawthorne as the principal petitioner. Messrs. Archie Crawford, Samuel Moore and Samuel Hagans were appointed viewers.

The second petition prayed for a road in Tiverton township with J. F. Friedli as principal petitioner. Upon the merits of this petition Messrs. William Crowthers, Alonzo Van Winkle and H. E. Babcock were appointed viewers.

The commissioners meet with the county infirmary directors this evening, for the transaction of some joint business and will be in session again Thursday and Friday of this week.

CAME DOWN SUDDENLY.

A Serious Accident Narrowly Averted Monday Afternoon.

What might have proven a very serious accident happened at the Hanley flouring mill, on Main street, Monday afternoon. A large New Era scalping machine was being lowered from an upper story of the building preparatory to shipment to Columbus. The machine weighs nearly half a ton and was being lowered by means of a block and tackle with a team of horses furnishing the power. The big machine was little more than started when a rope broke and down it went to the pavement below, a distance of about thirty feet. Fortunately no one was in the way of the drop, but everybody about, including the team of horses, got a good scare.

A Surprise Party.

Mrs. Mary E. Smith was pleasantly surprised by finding a number of neighbors and friends gathered at her home when she returned from her employment. The evening was spent with games and a guessing contest and a very enjoyable time was had. Mrs. Smith was the recipient of a beautiful parlor lamp as a token of the esteem in which she is held by her friends.

A Theater Party.

Eight young ladies made up a theater party, Monday evening, and enjoyed the presentation of "A Prince of Tramps," at the opera house. After the performance they enjoyed a lunch at Tylers. The party was composed of Misses Bessie Gamble, Delva Speckman, Bernice DeHart Mary Denman, Daisy Wilcoxon, Nell Burns, Nellie Gosser and Agnes Hanlon.

AT THE COUNTY FAIR

Those Who Attend Wednesday Afternoon Will Be Treated

TO A WELL KEPT SURPRISE

The Departments Are All Well Filled and the Exhibit Premises One of the Best in the Association's History.

As everybody knows this is fair week in Coshocton and Coshocton county, and as usual everybody has been anticipating the event. These exhibitions are not only mammouth displays of farm products, machinery, fine arts, stock and the innumerable other articles that go to make up such an exhibition, but it is an occasion for the coming together of friends and neighbors in a great family gathering in which there is reminiscence and pleasure as well as profit in it for all.

For some days THE AGE scribe has been suspicious that Secretary Boyd, always alert to the success of the fair and the entertainment of those who attend, was not advertising all of the attractions that he proposed to present this week. His movements have been such as to create the impression that he had a deep laid scheme to surprise the people with some interesting feature not down on the bills. So confident was the reporter that this was true that he went to work in a quiet way to see what he could find out and he did find out. That he did will undoubtedly be a great surprise to Secretary Boyd and the fair management for they thought, and yet think, that their secret had been well kept, and so it has been, but nevertheless THE AGE knows all about it. It does not propose, however, to tell today what is in store for the people who attend the fair Wednesday afternoon further than to say that the best part of the afternoon program is not down on the bills. This much THE AGE will tell and feels justified in stating that the people will be more than pleased. THE AGE appreciates Secretary Boyd's effort to spring a real surprise and will refrain from giving any more definite information as to its character than may be found in what is here published.

Secretary Boyd states that the prospects for a fine exhibition in every department of the fair never was better.

THE NEW JURY COMMISSION

Met Tuesday Forenoon and Selected the Names for the Jury Wheel. Jurors Drawn.

In compliance with orders from Judges Maxwell and Eason the new jury commission composed of J. C. Fisher, H. D. Beach, Samuel Hagans and John Hay met at the county clerk's office Tuesday morning and selected the regular list of 130 names competent as jurymen. This list of names was placed in the jury wheel and Clerk Mizer assisted by Sheriff Hedge drew out 15 names for grand jurors and 16 names for pet jurors for the October term of court. The jury commission was then discharged. The "good men and true" drawn were:

Going to the Conclave.

The St. Bernard Commandery No. 51, Knights Templar, of Uhrichsville, passed through the city at noon today on their way to the conclave at Dayton. They took with the Newcomerstown's famous Hyperion band and they honored Coshocton with a serenade while the train stopped at the station. The Knights Templar who went from here were Charles Geidel and Burt F Voorhees.

During Fair Week.

The retail merchants of the city have agreed to close their places of business Wednesday afternoon in order to give all an opportunity to attend the fair. Their places of business, however, will be open Thursday and Friday evenings, in addition to the regular Saturday evening opening, to accommodate persons attending the fair who may want to make purchases.

Jesse James Here.

Manager Rosskam always up to the time, has acceded to the demand of the hour for sensational plays and has secured the climax of all that has been written in that particular line with a dramatization of Jesse James life and exploits. The scenes are most exciting, 28 horse pistols are used in the play, and when the railroad scene, where the James boys and the famous rival gang of outlaws meet, it is nothing short of a real battle, and the gun powder may be smelt enough to even satisfy the oldest veterans. There is plenty of comedy in the play introduced, by the character of Lige Snowball, a happy Missouri negro, and his "bunch of sweet connubial felicitudes," Liza Ann. This is the debut of the extreme of melo-drama in our city, and it is probable our theater goers will fill the theater. 1t

PROMISING INDUSTRY

The Coshocton Rock Plaster Company Now in Operation.

HOW THE PRODUCT IS MADE

The Goods of the Company to Broadcast and Their Quality Increases the Demand.

Of the new industries recently established in Coshocton there is one concerning which the general public probably knows but little. Reference is made to the Coshocton Rockplaster company's plant, located near the T. W. V. & O. trestle in the northwest part of the city. The plant is under the management of Mr. A. W. Lefler who came here from Uhrichsville to assume the business management. The plant has been in operation just about one month and gives promise of very soon becoming one of the important industries of the city. The force of men employed at present is not large but this number will be increased from time to time as the business grows.

Rockplaster is produced from a mixture of a good quality of sand, stucka or plaster of paris and the hair of cattle or goats. A large mixing machine made especially for this purpose and run by a small engine mixes these three ingredients producing the plaster without the addition of any liquid The output of the plant is almost all shipped out of the city, though some is sold to local trade. The new industry is located conveniently near the railroad for shipping purposes.

THE REPORTER'S NOTEBOOK.

—The Gray Hardware Company.

—There will be a regular meeting of Coshocton lodge No. 376 B. P. O. E. this, Tuesday, evening.

—The new plant of the gas company is now completed and hereafter the supply will be furnished from the new plant.

—The handsome new sign that adorns the front of the Wolfe Furniture company's place of business is the work of Charles Fleming and Will Tish.

—Paving on South Lawn avenue has progressed as far as Poplar. Mr. Kisner had hoped to reach Vine by Wednesday but was delayed by the rainy weather. A large force is at work now.

A Roughman in Trouble.

John Roughman had an engagement with a man who sells soft drinks to work during fair week here but the soft drink man didn't appear, so John filed up on drinks not overly soft and began celebrating. He was arrested and brought before Mayor Renner who fined him and turned him loose.

An Enormous Fish Product.

The principal fish yields of the United States produced in one year for the market the extraordinary amount of 588,625,619 pounds of edible fish, for which the fishermen received more than $15,000,000. This does not include the run of shad, or any fish brought directly to New York city and other ports south; nor does it include the quantities taken in local waters and consumed in the villages and smaller cities. Neither does it include the shell-fish.

He Got His Answer.

A richly deserved retort was that made by a Sioux girl at the Hamilton institute not long since. A silly visitor to the school went up to the magnificent red-skinned belle and said: "Are you civilized?" The Sioux raised her head slowly from her work—she was fashioning a breadboard at the moment—and replied: "No; are you?"

At the Opera House.

The Chicago Stock company made its debut for the week to a crowded house Monday evening. The audience was delighted with the fine acting of Mr. Rosskam as the "Prince of Tramps." Mr. Grande won all hearts with his beautiful voice. The specialities were good, particularly the sleight of hand performance. The scenery, stage effects and costumes are firstclass inevery way.

This is fair week in Coshocton county and everybody is going to the fair.

As an evidence of the expansion of business and the ample amount of money to meet all commercial requirements 38 new national banks were organized during the month of September.

Mrs. Hetty Green, the richest woman in the United States is quoted as saying: "I don't believe in luck. Luck is superstition. If you start life with a good soul, a good, sound, healthy body, and work hard, you will succeed. Don't live high; don't get into bad company."

The net earnings of the six anthracite coal carrying railroads in August of this year were $2,518,017 less than for the same month a year ago. That indicates what the strike is costing them. Perhaps the stockholders may have something to say, a little later on, if these conditions of business continue.

An exchange tells the story that in 2 hours and 25 minutes a growing tree in Eisentnal, Austria, was converted into newspapers. At 7:35 a. m. the tree was sawed down; at 9:34 the wood, having been stripped of the bark, was turned into pulp and made into paper; at 10 o'clock the paper was printed and sold on the streets.

The Canton News Democrat, the Democratic organ of Stark county, says in its issue of Saturday, Oct. 4:

"Canton's bank clearings last week were an even $500,000, a gain of 21.3 percent over the corresponding week of last year. This rate of increase is certain to pass Canton ahead of some of her rivals."

Certainly a tribute to conditions that exist under a Republican administration and we congratulate our neighbor upon being frank and fair enough to acknowledge the fact.

There are many who agree with Mr. Roosevelt that it would be well if the tariff question could be taken out of politics, but this seems to be impracticable. It has been a distinctly political question from the foundation of the government and it is altogether likely that it will continue to be indefinitely. The idea of taking it out of politics has been frequently urged, but has never had a very strong support and party division on the question will undoubtedly be as sharply drawn in the future as it has been in the past and is now.—Omaha Bee.

Some one, with a penchant for figures, has discovered that the average number of words a man utters in a year is 11,800,000. Nothing is said about the women.

The Hon. N. J. Bachelder, Republican candidate for governor of New Hampshire, resides on the farm at Andover, that state, which was cleared by his grandfather in 1752

Nature seems to have made Jamaica the home of the banana, but it remained for American enterprise to turn the yellow fruit to gold. It is estimated that 9,000,000 bunches of bananas were shipped from the Island last year at an average of 35 cents a bunch this would yield $3,150,000. It is also stated that about $1,850,000 is paid out annually in wages by fruit companies. This would bring a total of $5,000,000 to the island in one year as a direct result of the fruit trade.

In spite of President Roosevelt's strong presentation of the crisis that is upon the country, says the St. Louis Globe-Democrat, the coal operators peremptorily refuse to modify their position. The president personally appealed to the principals in the strike controversy to consider "the urgency and terrible nature of the catastrophe impending over a large portion of our people in the shape of a winter fuel famine," but without the slightest effect on the operators. Mr. Mitchell, representing the strikers, offered to submit the entire case to arbitration and abide by the result in every particular. All essential points were thus conceded by Mitchell, while nothing was conceded by the operators. The full responsibility of the continued strike is now located. President Roosevelt has proceeded impartially and conservatively to test the views and feelings of both sides directly engaged in this calamitous strike. The conference leaves the emergency more threatening than ever. It is not known what President Roosevelt's next step will be, but he is a man who acts vigorously and promptly. He will have the full and enthusiastic support of the country in asserting the rights and protecting the safety of the people.

Growth of Mormonism.

Salt Lake City, Oct. 7.—The annual conference of the Church of Jesus Christ of Latter Day Saints has closed. The Mormon church has missions in every civilized country in the world and nearly all of them were represented at the conference just closed, while Utah, Idaho, Colorado, Arizona, New Mexico, Canada and Mexico, where the church flourishes, were represented by thousands. It is estimated that 40,000 people have attended the conference meetings. The growth of the church, as shown by missionaries and the church reports, has been remarkable in the past year.

Sympathize With Miners.

Berlin, Oct. 7.—The coal strike in the United States is attracting more and more attention here. The newspapers print rather full accounts of the conferences at Washington. The press takes side with the miners and censures the operators for their unyielding attitude.

BY WHITECAPS.

Indiana Man Treated to a Coat of Polish, Egged and Whipped.

Peru, Ind., Oct. 7.—Whitecaps treated Henry Lee, near Denver, Ind., to a coat of stove polish and ancient eggs after whipping him. Five masked men entered the home of John Ehrhardt in Denver, and, finding Lee, dragged him out doors and administered the punishment. Lee struggled and pleaded for mercy, but the men paid no heed to his cries. He was in Denver and may attempt to prosecute the men who he believes are the parties that assailed him.

SO WEARY.

Weary and worn out all the time. Back weak and lame and aching. Headache, Nervous. Restless, Excitable. The Kidneys are sick.

Doan's Kidney Pills

cure every symptom of Kidney Ills, from common backache to complicated urinary disorders.

Mrs. J. S. Griffis, of 293 West avenue, Sidney, O., whose husband owns and operates the grain elevator, says: "We think we never had a remedy in our house like Doan's Kidney Pills. My husband used them, and they were the only remedy which ever positively relieved him. It is six months since we procured them at C. J. Briggs' drug store, and since taking them I have been quite free from the pain in my back, the distressing headaches stopped, and my kidneys caused me no embarrassment whatever. We can heartily recommend Doan's Kidney Pills to others."

Mitchell Meets National Manufacturers' Committee.

WAYS AND MEANS TO BE DISCUSSED.

Commissioner Sargent Leaves Washington With a Presidential Message For the Head of the Mine Workers. Entire National Guard Out In Pennsylvania—Situation to Date.

Buffalo, Oct. 7. — The members of the committee appointed by President Parry of the National Association of Manufacturers to confer with President Mitchell and the three district presidents of the United Mine Workers arrived in the city this morning. The object of the conference is to devise some means whereby the manufacturers of the country may obtain enough coal to keep their plants in operation during the continuance of the miners' strike. The committee is

FRANK P. SARGENT.

composed of the following members: George H. Barbour, Michigan Stove company, Detroit; P. L. Converse, locomotive manufacturer, Philadelphia; E. R. Ripley, United Glass works, Pittsburg; Richard Young, leather belting manufacturer, New York; D. M. Parry, Indianapolis, president of the association. The committee and President Mitchell met in secret session at noon.

Commissioner Sargent's Mission.

Washington, Oct. 7.—There was only one development of importance here in the coal strike situation. Frank P. Sargent, commissioner of immigration, and for many years chief of the Brotherhood of Locomotive Firemen, had a long interview with President Roosevelt and left Washington very soon afterwards. Mr. Sargent indicated that the interview concerned the coal strike, but he would not discuss the matter. From the fact that he has always been influential with labor organizations, it is generally believed that he is entrusted with a message to President Mitchell of the miners' union. While many propositions have been under discussion, it is almost certain that the administration is taking up only one plan at a time. The present plan contemplates an end of the strike by the action of President Mitchell and his associates, and a full investigation of the mining conditions later.

ENTIRE GUARD OUT.

Governor Stone Takes Action After a Conference.

Harrisburg, Pa., Oct. 7.—The entire division of the national guard of Pennsylvania was ordered to the anthracite coal fields by Governor Stone after a conference with state military officials Monday night. The soldiers will be in the field today. The order calling out the guard in part is as follows: "In certain portions of the counties of Luzerne, Schuylkill, Carbon, Lackawanna, Susquehanna, Columbia and Northumberland, tumults and riots frequently occur, and mob law reigns, men who desire to work have been beaten and driven away, and their families threatened. Railroad trains have been delayed, stoned and tracks torn up. The civil authorities are unable to maintain order and have called upon the governor and commander-in-chief of the national guard for troops. The situation grows more serious each day. The territory involved is so extensive that the troops now on duty are insufficient to prevent all disorder. The presence of the entire division national guard of Pennsylvania is necessary in these counties to maintain the public peace. The major general commanding will place the entire division on duty, distributing them in such localities as will render them most effective for preserving the public peace."

Mitchell's Mysterious Visit.

Wilkesbarre, Pa., Oct. 7.—President John Mitchell of the United Mine Workers of America slipped out of town for Philadelphia, where he met Carrol D. Wright, United States commissioner of labor, who is President Roosevelt's personal representative on matters pertaining to the anthracite coal strike. Mr. Mitchell returned here later unaccompanied and unannounced, and made the simple statement that he had met the labor commissioner. He refused absolutely to discuss his visit to Philadelphia.

Miners to Hold Mass Meetings.

Wilkesbarre, Pa., Oct. 7.—President Mitchell has issued a statement urging the officers of all the local unions to call mass meetings of all men on strike, union and nonunion, such meetings to be held in each mining town at 2 o'clock Wednesday afternoon, Oct. 8. He adds: "We know that the mine workers are not restricted from going to work by a fear of bodily harm, and if this is the sentiment prevailing at the meetings, resolutions should be adopted emphatically declaring the statements of the operators to be untrue. We also advise that acts of lawlessness by the coal and iron police and by strikers be denounced and the services of members of the union be tendered the local authorities to preserve law and order."

COLONEL BRYAN

Makes Suggestions to Settle the Anthracite Dispute.

Lincoln, Neb., Oct. 7.—In a statement W. J. Bryan says President Roosevelt should be commended for his efforts to settle the miners' strike. He suggests, however, that since the operators decline to arbitrate, the president's hands are tied, and urges him to call an extra session of congress. Five measures, Mr. Bryan says, should be recommended for passage: "A law establishing a national board of arbitration to consider and report on all controversies between corporations engaged in interstate commerce and their employes; a law abolishing government by injunction; a law that will discriminate between the natural-made man created by the Almighty and the corporate giant created by legislation; a law which will prevent railroads engaged in interstate commerce from operating coal mines except for the purpose of supplying fuel for their own engines."

Coal Imports.

London, Oct. 7.—Reports from Cardiff say that 25 steamers have been secured for early sailing from South Wales ports for New York and Boston, and it is said American purchases during the last week at Cardiff alone totalled 100,000 tons, of which 80,000 tons were for New York. The purchases at Swansea last week totalled 20,000 tons. It is estimated that the Welsh sales of coal for America aggregate 200,000 tons since the rush began. Anthracite coal is now quoted at the highest price which it has ever reached in this country.

REUNION UNDER WAY

Washington Capitulates to the Veterans of the Civil War.

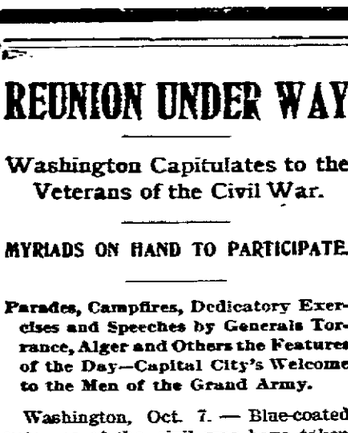

MYRIADS ON HAND TO PARTICIPATE.

Parades, Campfires, Dedicatory Exercises and Speeches by Generals Torrance, Alger and Others the Features of the Day—Capital City's Welcome to the Men of the Grand Army.

Washington, Oct. 7. — Blue-coated veterans of the civil war have taken the capital city by storm. Washington is in gala attire, and brass bands at the head of marching columns are encountered at every turn. Many trainloads of people have arrived and it is now quite certain that the anticipations of an exceptionally large attendance will be realized.

Tuesday's program included a grand parade of 10,000 regulars, with a naval contingent, Sons of Veterans and revenue cutter service; cavalry corps reunion, General Alger being the principal speaker; dedication of the General Wright monument at Arlington, the speaker of the occasion being General Kiefer; receptions and reunions.

An event was the dedication of Camp Roosevelt, the tent city on the White House grounds, which will be the headquarters of the several corps organizations during the week. The ceremonies there consisted of a number of addresses by men of national reputation, the chief speech being delivered by Secretary Hay. For the rest the old soldiers buried themselves largely in renewing the acquaintances of 40 years ago and in manifesting their appreciation of the

GENERAL DANIEL E. SICKLES.
(Mentioned for Commander.)

welcome extended to them by the capital city. Of this welcome they found generous evidence on every hand. The events, outside the dedication ceremonies at Camp Roosevelt, included a fine regatta on Potomac, an attractive automobile parade, an interesting procession by the Red Men of this city and neighboring cities and campfires. Commander-in-Chief Torrance and his staff kept open house all day at the Ebbitt House, and received many hundreds of callers.

General Eli Torrance, commander-in-chief of the Grand Army, was introduced to respond to the words of welcome at the dedication of Camp Roosevelt. He spoke warmly in appreciation of the reception given himself and his comrades, which had been, he said, all that they could expect. Referring to the fact that the ex-soldiers of 1861 had dissipated the predictions of European publicists that they would be a menace to the peace of the country, he declared that there had never been the least danger. "We had been made good citizens at our own firesides, and there never has been the least reason to apprehend harm to our national institutions because of our soldiery." He closed with an expression of the desire of the old soldiers for the prosperity and perpetuity of the republic."

There are five places mentioned for the next encampment of the Grand Army, Atlantic City, Los Angeles, Saratoga Springs, Pittsburg and San Francisco. The candidates for commander-in-chief most frequently mentioned are General John G. Black of Chicago, John McElroy of this city, General Daniel E. Sickles of New York and General Thomas J. Stewart of Norristown, Pa.

Five thousand veterans and their friends Monday night gathered in convention hall and participated in the campfire of the thirty-sixth encampment of the Grand Army. The hall was decorated entirely with American flags. The ceremonies were opened by a medley of patriotic airs by the United States marine band, followed by songs, speeches and music, which stirred the veterans to unbounded enthusiasm. The principal address of the evening was by General Eli Torrance, commander-in-chief of the Grand Army, who congratulated those present on "the happiness of the hour and the unity of our hearts." The feeling, he said, was beautiful, beyond the power of speech to describe. We are the custodians, he said, of a trust that is of imperishable value. We must have faith, he said, or we are useless as citizens, and there should not be standing room upon the great body of this republic for a man without hope, without faith.

Ask For More Troops.

Glens Falls, N. Y., Oct. 7.—Sheriff Gill has called on Governor Odell for another company of national guards. The village trustees have posted a proclamation forbidding all parades, mass meetings or congregating on the streets until the trouble is settled between the trolley company and the strikers.

President's Condition.

Washington, Oct. 7.—The president is reported to be doing very well. He had a comfortable day, receiving few visitors. It is confidently expected that he will be able to carry out his hope of riding along a portion of the parade route next Wednesday to review a part at least of the Grand Army.

Vessels Ashore.

St. Johns, Oct. 7.—A severe storm swept over Labrador last week. Six vessels are ashore and their cargoes of fish have been lost. The mail boat from Labrador is delayed. It is feared that she will bring reports of heavy losses in northern Labrador.

ANNOUNCEMENT TO INVESTORS:

MINE LAMOTT LEAD & SMELTING COMPANY owns 37 614 acres of ground located in Madison and St. Francois Counties, Southeastern Missouri. Of that total 13,544 ACRES ARE KNOWN TO BE HEAVILY MINERALIZED. Only 20 acres have been developed by underground workings, and about 67 acres have received attention on the surface.

THE MINES ARE PRODUCING TODAY, UNDER VERY LIMITED OPERATION, MORE THAN $150 000 A YEAR. The present management is now installing machinery and improvements that will swell this annual output to AT LEAST $500,000. Present shafts and drifts place in sight ore enough to tax all available machinery for centuries. Eliminating from the calculation all revenue from agricultural, timbering and miscellaneous sources, the property will earn a sum ample to pay immense dividends annually on the capitalization.

Investment in such a proposition as this does not in any sense border upon speculation. Stock in this corporation is as carefully protected as a Government bond. Since it is offered to you at a figure considerably below par, you can be assured of several times the ordinary rate of income.

Mine La Motte has been for more than a century, one of the most famous lead producers in the country. It is the only mine today producing and shipping Nickle and Cobalt regularly. Its "Anchor" Brand of Pig Lead has been the standard of the market for years.

The estate, mine and plant has been under private ownership and control until now. From this time forward the output of the property will be increased as fast as modern machinery and methods can be installed to do it. Present earnings as sure annual dividends of at least 8 per cent. on par, and inside six months this will be doubled.

A small block of stock is herewith offered for sale at $7 50 per share. (par value $10. The amount put out at this figure will be very limited. Immediate investors can make good profit, both on income and on rise in value of stock : : : : : : : : : : : : : :

A large number of representative Ohio investors have already made careful personal inspection of property and plant. We will place you in touch with them, or if you or any of your friends will undertake your own personal investigation we will submit proposition to defray all expense incident to same. We shall ask you to do no business with us unless you may be absolutely satisfied as to the safety, integrity and profit of this investment.

TO PASS THE CODE.

House Ready to Vote on the Municipal Bill.

MORE AMENDMENTS ARE ADOPTED.

Health Departments of Cities Under the Merit System—Collection of Special Assessments—Election of Councilmen—Intelligence of the Buckeye State.

Columbus, Oct. 7.—An amendment to the code was passed by the house placing the health departments of the cities under the merit system. The house struck out the section in code providing for the collection of special assessments by the contractor, and made it the duty of the corporation treasurer to collect them, unless specifically ordered otherwise in the assessing ordinance. The vote which amended the code by providing for the election of street commissioners by village councils was reconsidered, and it was made the duty of the mayor to appoint them. The vote on the Denman amendment, which was defeated Thursday, was reconsidered and the amendment was adopted. Under it, at the first election for councilmen, half of them will be elected for one year and half for two years, and thereafter all of them for two years.

Mr. Bracken of Franklin offered in the house a joint resolution calling upon President Roosevelt to secure the appointment of receivers for the anthracite coal companies and the operation of these properties by the government until the conflicting interests have settled their differences.

The house will vote today on the code. As several amendments were offered by Democrats the roll may not be called until late this afternoon. Mr. Stage may present his franchise amendments, although this is not certain. Mr. York will offer his bill, the Okey code, as a substitute for the house measure, but there will be no attempt made for the adoption of the federal plan. The house special code committee met and recommended the Longworth bill, or the senate code, for passage, after striking out all after the enacting clause and substituting the house code. It is on this that the vote will be taken. The chapter providing for the police courts will not be divorced from the code until after the vote has been taken. If the code fails to receive the 72 votes required to adopt the sections relating to the judiciary, these sections will be taken out and the vote will be reconsidered. With the police court chapter out, only 56 votes will be required. The speaker has a bill already prepared providing for police judicial districts, and this will be introduced and placed on its passage at once.

The bill which will go to the conference committee from the house will be known as the Longworth-Comings bill, and when the compromise measure is reported from the committee to the two houses it will bear the same title. This was decided upon at the meeting of the house code committee and has been agreed to by the senate.

Hanna Challenges Tom Johnson.

Cleveland, Oct. 7.—In his speech at Steubenville Senator Hanna challenged Mayor Tom L. Johnson to a debate on the tariff, the subject to be discussed from a strictly economic standpoint and with no reference to monopolies. Senator Hanna's challenge was telegraphed to Mayor Johnson at Wooster, and he replied that he would accept the challenge and would debate the subject in any way or at any time that Senator Hanna might name.

Farmer Robbed.

Findlay, O., Oct. 7.—Chief of Police Kramer arrested Ida and Lou Bentley, the women who were accused of doping and robbing Charles Van Horn, a wealthy stock raiser, of $1,025. The women at first professed innocence, but soon weakened and produced $950 in bills from a grain bin and turned it over to Chief Kramer. When arrested they were on the point of driving to Forest to catch a train for Chicago.

ALL WALKS IN LIFE

A Comfort to the Aged, to the Young and Middle Aged is Cure—A Nerve Medicine Never Equaled.

Mr. R. O. Martin, of No 1131 Adams street, Coshocton, Ohio, says: "My age, 84 years, brings with it the nervous, trembly feeling all aged people show, and while it is impossible to ever become vigorous again I want to say that the great tonic and steadying power of Dr. A. W. Chase's Nerve Pills I get at C. E. Anderson's drug store are a great comfort to me. They steady my nerves, make the shakiness much better and life in general brighter and bearable. They certainly give me greater strength and ability to get about nicely."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.
